

**In the Claims**

Applicant has submitted a new complete claim set indicating marked up claims with insertions and deletions indicated by underlining and strikeouts, respectively.

1-66. (Canceled)

67. (Currently amended) An isolated nucleic acid molecule selected from the group consisting of

- (a) a nucleic acid molecule comprising a fragment of SEQ ID NO:681 of at least [[8]] 12 nucleotides,
- (b) complements of (a).

68-117. (Canceled)

118. (Currently amended) The isolated nucleic acid molecule of claim 67, which codes for a polypeptide which, or a portion of which, binds an MHC molecule to form a complex recognized by [[a]] an autologous antibody or lymphocyte.

119-120. (Canceled)

121. (Withdrawn) An expression vector comprising the nucleic acid molecule of claim 67 operably linked to a promoter.

122. (Withdrawn) A host cell transformed or transfected with an expression vector of claim 121.

123. (Canceled)

124. (Previously presented) An isolated nucleic acid molecule comprising a nucleotide sequence selected from the group consisting of (a) SEQ ID NO:681, (b) nucleotide sequences which hybridize under stringent conditions to a nucleic acid molecule consisting of SEQ ID

NO:681 and which code for a cancer associated antigen precursor, (c) nucleic acid molecules that differ from the nucleic acid molecules of (a) in codon sequence due to the degeneracy of the genetic code, and (d) complements of (a), (b), or (c).

125. (Withdrawn) An expression vector comprising the isolated nucleic acid molecule of claim 124 operably linked to a promoter.

126. (Withdrawn) A host cell transformed or transfected with an expression vector of claim 125.
